1.1.1 The Institution ensures effective curriculum delivery through a well-planned and documented process

PG and UG programs offered in Pydah college of Engineering, affiliated to Jawaharlal Nehru Technological University, Kakinada. Our Institution has a mechanism for well-planned curriculum delivery and documentation. Apart from the traditional teaching-learning methods of whiteboard and lecturing method, our college lays great emphasis on curriculum delivery through practical learning. The college arranges an array of co-curricular activities to enrich the curriculum. Our college follows the Academic Calendar issued by Jawaharlal Nehru Technological University, Kakinada. Principal, Heads of the departments, Time table coordinators prepare a draft of the timetable which includes theory , practicals ,soft skills, campus recruitment training classes, and co-curricular activities like sports which enhance student's academic excellence as well as personality development.
The college adheres to and functions as per the academic calendar issued by the affiliating university JNTUK. It is displayed on the notice boards and on the college website. The academic calendar of the University is followed and at the institutional level, the college academic calendar is formulated keeping in mind the inclusion of Exams, Co-Curricular and Extracurricular activities to ensure the all-round development of the student. The examination branch of the institute strictly adheres to the university's academic calendar and conducts the internal examinations and monitors the evaluation process.

The College academic committee which consists of the Principal and Heads of the department are going to implement an action plan for the successful delivery of the curriculum, to implement this curriculum the heads of the departments conduct frequent meetings in their respective departments, to develop and ensure the quality of the teaching and learning process. To ensure effective curriculum delivery, every faculty member must submit a course file to the heads of the departments at the beginning of each semester. Regular interaction with Students of every class with the Principal ensures that lecturers complete their portion on time and effectively. The responses gathered via the student feedback survey help us identify improvement areas in curriculum delivery and evaluation methods. The progress of the students is maintained through mid-examinations, assignments, and semester-end exams.

The college is well equipped with smart classrooms, spacious and state-of-the-art computer labs, and other ICT facilities which are extensively used by faculty in day-to-day teaching to make the delivery of the curriculum attractive and easier for students.

The Institute follows Choice Based Credit System (CBCS), self-learning courses and some industry-offered courses for undergraduate programs and also utilizes Learning Management System (LMS) for the effective learning process. Value-added courses to enhance communication, employability, and entrepreneurship skills are included in the curriculum. Internships and live projects are also undertaken by students to enhance employability

The College academic committee invites proposals from the departments for various skill development course schedules and certificate or add-on programs in the curriculum to enhance the overall development of the students.
