3.3.1 Extension activities in the neighborhood community in terms of impact and sensitizing the students to social issues for their holistic development during the year 2023-24

Pydah College of Engineering has had an NSS unit since 2009 to infuse social responsibilities, including moral values, among the students. The motto of NSS **"Not Me But You"**, reflects the essence of democratic living and upholds the need for selfless service. The philosophy of the NSS is a good doctrine in this motto, which underlines the belief that the welfare of an individual is ultimately dependent on the welfare of society as a whole, and therefore, the NSS volunteers shall strive for the well-being of society. We integrate these activities with the academic curriculum so as to bring the best opportunities, which teach to help, to serve, and to learn. There are many activities that are conducted as part of NSS activities.

Extension Activities Carried out by NSS Unit at Pydah

- Pydah College adopted a backward area of a nearby village, PATAVALA.
- Mega Blood Donation camp
- Road safety Awareness
- Plastic Free Environment Program
- Primary Health Awareness Program
- Integrated Child Development Program
- Republic Day
- Navy Day
- World Aids Day Rally
- Childrens Day
- World Food Day
- Independence Day
- United Nation Environment Program

Impact of Extension Activities

The village adopted by Pydah helped the village people on various aspects like savings for future, importance of education, keeping environment clean, importance of health and many more.

PYDAH
GROUP
EDUCATIONAL INSTITUTIONS

We are proud enough to say that yearly twice blood donation camps are organised in our college. These activities help to wipe off the scarcity of blood and ensure availability of safe and quality blood and other blood components, round the clock and throughout the year at blood banks. This will lead to alleviation of human sufferings, even to the far-flung remote areas in the country.

A plastic-free environment is one where plastic use is reduced or eliminated. Plastic pollution harms the environment, wildlife, and human health.

A primary health awareness program is a program that aims to educate people about primary health care (PHC) and its importance. PHC is a whole-of-society approach that focuses on improving the health and well-being of people throughout their lives.
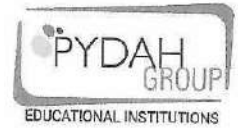

World AIDS Day?

- To raise awareness about HIV/AIDS

- To show support for people living with HIV

- To remember those who have died from AIDS-related illnesses

- To encourage progress in HIV/AIDS prevention, treatment, and care
